OBJECTIVE :

As a beginner in the field of Information Technology, I hope to associate myself with an organization that will allow me to utilize my skills in the best possible manner, and which will also give me the opportunity to advance in my career path while contributing to the development of the organization

EXPERIENCE

Freelancer— Full-Stack Developer

2021 - Present

A full-stack developer here to provide high quality IT services such as website development, e-commerce development, UI/UX design, and mobile application development

Pgm Software Solution,Triupur — Software Developer

Aug-2021 to Nov-2021

An opportunity exists for a software developer to work with a contractor for around 3 months. I'm building a mobile app for that integration with ERP software.

Webismizing Media, Gurugram,Haryana – Web Developer

June -2021 to July-2021

Second internship with this company as a full-stack Web developer. And I'm developing an Autocar web presence that involves both front-end, back-end, and SEO

Sri Anjaneya Services, Coimbatore —Web Developer

May 2021 - June 2021

The company offers internships for three months. In this project, I play two significant roles. UI/UX designer and Web developer. Completed the website development for the company. Created a more responsive and attractive website. They complimented the company. My first subdomain is awesome! Having time to test projects..

EDUCATION

KIT-KalaignarKarunanidhi Institute Of Technology , Coimbatore — B.E CSE

2019-2023

The current research is being conducted by a student of computer science engineering. For the last semester, I scored an 8.95.

Awards

I'm participating in several colleges competitions and have done paper presentation.
